UNION HEADS DELAY MEETING

Postponement of Session to Make
Final Plans For Strike is
Regarded as Significant

(By United Press)

Moves to prevent a nation-wide strike and preparations to meet it if it materializes were made today.

With assurances from high Washington officials that railroads would be kept running, President Harding had under consideration the calling of a conference of railroad men and executives to avert the strike.

When union leaders in Cleveland were informed of the conference plan, they said they would answer the call to attend if President Harding sent it out.

At the same time from the headquarters in Chicago and Cleveland, the railroad union men went ahead with strike preparations such as sending out of the formal call for the walkout beginning progressively on October 30. In Chicago a meeting of unions other than the big four brotherhoods was planned.

Throughout the country today mayors and governors prepared for measures to prevent any shortage of food and fuel because of the strike.

Despite advice to the contrary from Chicago coal men a poll of large cities indicated there was enough of a coal supply to run for several weeks at least.

Food stocks generally are not low although many of the smaller cities without large storage facilities might be inconvenienced.

Mobilization of motor trucks to haul food in case they are needed was the plan hit upon in practically every city. Kansas City was preparing to use airplanes.

It is not believed, however, that the hauling of milk and other perishables will be interfered with.

Industries in every section of the country will be affected by a strike.

Cleveland, Ohio, Oct. 17.—Meeting of railroad union heads to make final plans for the October 30 strike was postponed today until Wednesday. It had been scheduled for Tuesday.

While no explanation of the delay was forthcoming from union chiefs, the delay was considered significant in view of the probable proposal of President Harding to summon the labor leaders to Washington for a conference with the employers.

Several of the union heads, including Warren S. Stone and W. G. Lee, declared that if President Harding asked them to Washington for a conference they would go willingly.

Lee said:

"The situation is entirely out of the hands of the Brotherhood chiefs. We have no choice but to bow to the will of the men who voted overwhelmingly for a strike. If the government should step in, however, and rule in our favor, that would be a different matter."

"As I see it, the promise of a freight rate reduction if the employees would consent to another cut would be about as noticeable as that which followed the July cut."

The railway unions figuratively turned their backs today on what apparently was the last chance to avert the general strike called for October 30.

Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, summed up their attitude toward the compromise proposed of the public group of the railway labor board when he tersely exclaimed: "It isn't feasible."

This proposal was that wage reductions authorized July 1 should

Says Mails Will Move

Washington, Oct. 17.—"The mail will be moved," Postmaster General Hays declared today in the first official statement on the railway strike from government officials here.

Hays declared that if the controversy developed to the point of making drastic action necessary, there will be action. "I am sure that parties other than those in the controversy will not permit development which will interfere with the government service," said Hays.

"This is no time for a statement from this department. A time may come for action. I sincerely trust it will not, but if it does, the mail will be moved."

Members of the public group of the railway labor board who met last night and put forth the suggestion of solution of the trouble with President Harding's approval, met with the interstate commerce commission a 2 p. m. for a general discussion of the matter.

The railroads can not agree to the labor board's suggestion that the lines change the 12 percent wage reduction of last July into immediate rate reductions. It would mean bankruptcy, it was said.

be reflected immediately in freight cuts and that further wage reductions should be postponed indefinitely.

Plenty of Fuel and Coal

Milwaukee, Wis., Oct. 17.—A survey of conditions in and around Milwaukee by the Association of Commerce brings out the announcement that even though a rail strike is called this city will suffer very little from lack of fuel and coal.

To Use Motor Trucks

St. Paul, Oct. 17.—With trade traffic shut off by a railroad strike practically all motor trucks engaged in wholesale and retail commerce could be thrown into the breach and maintain distribution of necessities within a radius of 100 miles of the Twin Cities, commercial bodies of St. Paul and Minneapolis said today.

Indianapolis Not Worried

Indianapolis, Ind., Oct. 17.—Railroad executives and union chiefs in Indianapolis were still hopeful today that the nation-wide strike set for October 30 could be averted. Both sides expressed the hope that the conference in Washington would devise some means to bring a peaceful end to their differences.

If the strike does come it won't hit Indianapolis very hard, according to dealers in food and coal. The food supply is sufficient to carry the city through a strike of two months and the coal reserve will last through half the winter, it was said.

Chicago Won't Suffer

Chicago, Oct. 17.—Chicago, the granary of the world, would not suffer from a railroad strike it was stated by the Association of Commerce today.

Large stores of grain and food, out of which the nation is fed, would be used to feed Chicago when shipments to the outside would close. Large supplies of meats, of course, are on hand at the stock yards.

Chicago is the coal center of the nation and an abundant supply is held here.

Called to Washington

Indianapolis, Ind., Oct. 17.—Secretary of Labor James J. Davis was speeding to Washington today in response to a telegram from President Harding summoning him there in view of the serious situation arising from the threatened railroad strike.

The secretary said he had been advised by President Harding to "say nothing" regarding the threat and he refused to comment in any way.

Secretary Davis had been touring Indiana on a vacation trip, which

Cleveland, Ohio, Oct. 17.—The groups by which the railway workers will be called out were reported this afternoon. The Big Four is in group No. 3, 6 a. m. November 3. The make-up of the balance of the third and fourth groups could not be ascertained but it was said it included the remaining railroads of the country so that every line will be affected by November 5.

INDEPENDENTS TO BACK BIG UNIONS

Big Labor Leaders Strive to Mass
Workers Into Solid Front For
Oct. 30 Railroad Strike

GENERAL CHAIRMAN MEET

Leaders of Twenty Odd Smaller Un-
ions. Whose Members Voted to
Strike, in Session Today

By CARL VICTOR LITTLE
(U. P. Staff Correspondent)

Chicago, Oct. 17.—Big labor leaders today strove to mass workers into a solid front for the October 30 railroad strike.

Most independent unions, not affiliated with the five big brotherhoods, but having doubled their membership, planned to back the big leaders in the walkout in protest against wage slashes announced by railroad executives.

General chairmen of several of twenty odd smaller unions, having an aggregate membership of one million met today. Others are scheduled to meet this week.

Caucuses of these unions showed that their membership did the same as all big unions—voted overwhelmingly in favor of a strike. Throwing of their strength with the brotherhoods would be a mere formality, it was indicated.

Bert M. Jewell, president of the railway department of the American Federation of Labor which comprises the thirteen distinct unions belonging to the federated shopcrafts formulated his strike plans and instructions with his cabinet today, it became known.

Jewell's division of railroad unionism—a half a million strong—was the first to vote to strike and have been hanging back for support from the brotherhoods.

The order of railway telegraphers are prepared, Vice President T. M. Pierson stated. "The operators, 81,000 strong, stand back of the Brotherhoods," he said.

COPY FOR BALLOTS READY

The copy for ballots to be used in the city election Tuesday November 8, was delivered to the printers today by Earl Osborne, city clerk and member of the election commission, following a meeting of the republican city committee Saturday night, at which time a change was made in the Republican ticket.

At the meeting of the committee, the resignation of Councilman E. A. Lee, republican candidate for council in the second ward, was presented and accepted, and George Wingerter was nominated to fill the vacancy on the ticket, as provided by law. Mr. Lee, who is the present councilman from the second ward, had to withdraw from the race on account of serious illness.

The election commission, which composed of Guy Mulharger democrat and Vern Norris republican and the city clerk, met Sunday and prepared the copy for the ballots so that they may be printed at the earliest possible date.

HIGHWAYMAN IS CAPTURED HERE

Roy Scott, Colored, Wanted in
Springfield, O., For Robbery
Arrested by Police

TAKEN TO SPRINGFIELD TODAY

Scott Informs Authorities Where
Companion Was in Hiding and
He is Caught at Richmond

A negro said to be Roy Scott, who is wanted in Springfield, O., on a charge of highway robbery, was captured here late Saturday afternoon, and placed in jail, and was turned over this morning to the police of that city and taken there to answer to several charges.

Friday the police received a form letter sent out by the police department of that city, which contained a photograph of two colored men, both wanted for highway robbery, and Scott was recognized as being the colored man who had been seen here for several weeks.

Late Friday night Patrolmen Jenkins and Nicholson went to the home of Mrs. Nancy Hodgins in the northeast portion of the city, where they had been told that the man was staying, as he had married Mrs. Hodgins' daughter. The man at this time is said to have made his escape through the rear door.

Saturday afternoon late, Patrolman Nicholson received a "tip" that he was in a house near the I. & C. power house, and he and Fireman Leslie Downey went to the place where Scott was located hiding in a closet.

As soon as he was arrested, he admitted to the officers that he was the man wanted in Springfield, and he also told the police that they would find Roy Cheek, his companion, in Richmond. The authorities in that city arrested him a few hours later.

City Detective George Abele of Springfield arrived here shortly before noon with a warrant charging the two men with highway robbery on the night of July 1. The officer stated that the two colored men attacked E. D. Lyle and Miss Ina Rockwell in a park in that city, and that \$15 in money and a watch were stolen from the man who was badly beaten by the thugs.

Miss Rockwell also was handled roughly and her wrist watch and jewelry taken, according to the affidavit which he had with him. The two people gave a description of the colored men, and as they each had served terms in the Ohio penitentiary their photographs were obtained and information concerning their arrest was sent broadcast, with the letter reaching here Friday.

The detective stated that in all probability charges of assault and battery with intent would be filed as

Alpine Man Sentenced to Reforma-

Violates His Promise

4 MORE HOMER MEN FINED

James Cassady, William Ennis,
Claude Collins Faun Miller Pleads
Guilty to Stealing Water Melons

George Allen, age 23 years, who pleaded guilty in the circuit court here September 7 to a charge of grand larceny, and to which he was given a suspended sentence during good behavior, was again arrested Saturday afternoon and this morning his sentence of from 1 to 14 years was revoked for violation of his promises to Judge Sparks.

Allen, it will be recalled, admitted taking \$50 from Mrs. Mary Nestle of West Ninth street, and as it was his first appearance here, he was given his freedom upon promises that he would return to his home in Alpine and not come to Rushville within the next two years, and that he would also behave himself.

He was arrested for intoxication in Connorsville and was in jail there where Sheriff Jones went to arrest him Saturday. His promise of not returning to Rushville was broken, as the court record states that he has frequently been in Rushville at night and visited houses of ill repute.

He was again placed in jail today and he will be taken to Jeffersonville to serve his sentence on the former charge. It was stated that he was the "ring leader" in the recent jail delivery here in which eight prisoners made their escape, but were caught.

Other grand jury indictments were served Saturday and today, which resulted in the arrest of James Cassady, William Ennis, Claude Collins and Faun Miller, all of near Homer, who pleaded guilty to the charges of carrying off products, or watermelons, from the land of Ed Lowden. Four others pleaded guilty to the same charge Saturday, making eight in all.

Their fines were assessed at \$1 and costs, or \$10.30 in each case.

John Ricker, was re-arrested on three grand jury indictments charging the same as affidavits to which he already had pleaded not guilty. The charges were for encouraging delinquency, unlawfully giving away liquor, and giving liquor to a minor. The bond on each case was \$250 and was provided with security.

Gerard Goodin and Earl Hall, also were among those indicted on similar charges upon which they had been arrested on affidavits charging grand larceny, and they

Marchers Pass Fifth Street
—1,000 Expected in Line

All owners of vehicles of any kind are hereby instructed not to park in Main street from First to Fourth streets Wednesday evening after six o'clock in order to leave the street clear for the county Odd Fellows Parade.

ARVEY WILFONG,
Chief of Police.

At a meeting of the committee having in charge the Odd Fellows parade to be held next Wednesday evening, it was announced that arrangements had been made with the city officials to clear Main Street of all vehicles from Fourth to First streets. No one will be permitted to park in the restricted district after 6 p. m. and those already parked there will be required to move their machines until after the parade.

The parade, under command of Harry Petry, grand marshal, will move promptly at 7:15—the Arlington band leading the first division consisting of Rush County Rebekahs and their floats representing the degree and the principles of the order; the second division will follow, led by the Odd Fellows band and will consist of Odd Fellows and the floats representing the subordinate lodges.

The line of march has been announced as follows: Forming in North Main above Fifth street, Rebekahs on west side of Main and Odd Fellows on the east side, south in Main to First; west in First to Morgan, north to Second, east to Main, countermarch to Third, west to Morgan and disband, the Rebekahs assembling at the Woodmen hall and the Odd Fellows at the hall of Franklin Lodge.

Both the above named halls will be closed until after the parade, assuring the participants an equal chance with others of gaining admission to the meeting places which are expected to be crowded.

The fireworks will be distributed—

IMITATORS OF THE ARMY VISIT THE CITY

Envoy Ellis Urges People to Beware
of Organizations Which do no
Relief Work Here

TWO OF WORST OFFENDERS

The local corps of the Salvation Army has had much trouble lately with imitators, according to Envoy Ellis. During the past week several organizations which pose as the Army wherever possible, have had representatives in Rushville collecting funds.

Envoy Ellis said that he would not object if the money collected were to be used for local relief work, but he pointed out that every cent these organizations get here goes to Indianapolis at a time when there is a great need for relief among Rushville people.

The local Army leader pointed out that these organizations imitate the Army in dress and even to carrying a tambourine, in order to carry out the deception and profit by the Army's popularity with the people. He warned Rushville people to make sure that solicitors seeking funds had the Salvation Army bands about their caps. The American Rescue Workers and the Good Samaritan Army were the worst offenders, Envoy Ellis said.

The Army workers expressed gratitude today for the check for \$65.91 which was received today as net proceeds from the benefit base ball game yesterday.

Former Rushville Woman's Romance Blighted by Husband's Memory Lapse

Strange Love Story Unfolded When
George L. Fisher, Husband of Mrs.
Esther Kratz-McCloud, Adopts
Ruth McCloud. Fish's Mind Blank
For Three Years Following Auto-
mobile Accident. After Which He
Was Pronounced Dead.

A love story stranger than fiction, involving Mrs. Esther McCloud-Fish formerly Miss Esther Kratz of this city, has come to light in Los Angeles, California, according to a story in the Los Angeles Examiner, received here, which dramatically recites how Mrs. McCloud and Fish were reunited following a three-year memory lapse which threatened to spoil the romance. Fish's mind was a blank for three years after he was injured in an automobile accident and first pronounced dead.

The story is told as follows by the Examiner:

An undertaker's incision remains a white scar on the firm flesh of the right arm of George Leander Fish, 47, of Long Beach.

It was made in a white-tiled mor-

gue five years ago, when Fish, to all medical tests, was dead.

He carries in his pocket the death certificate made out for him and signed at that time.

He has cancelled checks, which were given in payment for his funeral and his grave, and receipts therefor.

Flowers—withered now and pressed in his home—were fresh when sent by his fraternal society brothers for his funeral.

His skull had been fractured, twenty-one bones broken and his neck dislocated in three places, September 24, 1916, when a big motor car crashed into and wrecked his smaller automobile near San Jose.

He left the Garden City Sanitarium, San Jose, December 15, that year. He was pronounced cured.

But his now clear, forceful mind, remained blank until June, 1919, when a spinal manipulation set his brain to functioning again like a re-wound clock.

And through the length of his amazing story runs a silver thread of romance. Once it was stretched nigh to breaking; that was during

JUDGING 5-ACRE CONTEST

Ernest Thornburg of Shelby County Visiting Tracts This Week

Ernest Thornburg, manager of the Hamilton farms in Shelby county, is judging the contestants in the five acre corn contest in this county. He is being conducted on a tour of the county by Donald D. Ball, county agricultural agent.

The judging was to have begun last Friday, but was delayed one day and did not start until Saturday when Mr. Thornburg and Mr. Ball were in the northern part of the county. The judging will continue until Thursday. The five-acre contest aroused much interest among farmers last year, the prize winners being announced at the annual corn show.

ENOUGH COAL TO SUPPLY DEMANDS

Survey Shows Ample Production Regardless of Slumps in Mines And by Strikes

INTERESTING DATA RECEIVED

Threatening Railroad Strike May Again Cause Shortage This Winter, if it Matures

There will be coal enough for all this winter, in spite of slump in mine production, according to information gathered by the United Press from every section of the country.

If the railroad strike threatened materializes there may be a shortage in some localities, but dealers in most cities report a reserve sufficient to carry them through the winter.

Kansas and neighboring states report the lowest coal stocks due to the strike.

Other facts disclosed by the survey are:

That despite the fall in prices of many commodities, coal remains about the same price as last year.

That partly because of this and partly because consumers are awaiting a fall in freight rates, most householders delayed laying in winter stocks until the recent cold snap caused a rush in buying.

On the basis of present conditions, government officials do not expect any winter shortage. The total production of soft coal for 1921 is estimated as 391,780,000 tons as compared with 556,420,000 tons last year. Part of this falling off is explained by slack business conditions and part by the falling off in the export trade.

Government figures also show that many miners are out of work and railroad coal carrying equipment is idle. It is believed therefore that production could be speeded up quickly.

Most sections of the country reported slack buying until a few days ago, good supply in the hands of dealers and only slightly lower prices.

In the east, such cities as New York and Philadelphia, stocks were reported normal or above with slack buying and prices about the same as last year.

Pennsylvania cities, in the heart of the coal district report lowest prices with no fear of a shortage.

Cleveland reports only a thirty day reserve on hand, but with shipments speeding up, Columbus, Ohio, reports a large reserve.

Kansas City and St. Louis report small reserves and little advance buying but no fear of a shortage.

In Chicago coal prices are \$4 a ton less than last year but only a 30 or 45 days supply is on hand.

Southern cities in many cases report stocks lower than ordinary, due to the belief by dealers and consumers that a fall in freight rates was due.

TRIBUTE IS PAID
TO BRITISH TOMMY

Congressional Medal of Honor is Laid on Grave of Unknown Soldier in Westminster Abbey
PERSHING ACCORDED HONOR
Effort Apparently Made to Wipe From Memory Recent Red Tape Which Almost Stopped Ceremony
By CHARLES McCANN
(U. P. Staff Correspondent)
London, Oct. 17—Amidst the splendor of a military pageant sobered by solemn religious ceremony, American paid tribute to Britain's unknown warrior today.
The Congressional medal of honor, highest award within the power of the United States Congress was laid upon the grave of the unknown Tommy who lies buried in Westminster Abbey, while British royalty, peerage and military and naval dignitaries and American admirals and generals looked on.
General John J. Pershing, commander in chief of the American army was accorded almost royal honors before the ceremony today. King George sent the royal carriage to the American embassy and Pershing drove to Parliament square in state, between long lines of troops which stretched the length of Constitution Hill and Whitehall.
At the entrance to the historic Abbey where the ceremony took place, General Pershing and Ambassador Harvey were met and greeted by Dean of Westminster. With the Dean stood the Duke of Connaught representing King George. Every possible honor was accorded the American commander in chief in an apparent effort to wipe from memory the recent red tape and official blundering which nearly prevented his visit. The crowds along the route, held back by hundreds of police and troops, cheered enthusiastically.
Britain's ministers of war, air and navy were at the Abbey door with their guards of honor. Towering Welsh guards in bright scarlet tunics and high busbies, contrasted with the tin hatted, khaki clad doughboys from the Rhine, but the latter held their own in appearance and military precision. General Pershing took an especially snappy salute from his men as he stepped from the carriage.
Military and naval bands massed in the square broke into the Star Spangled Banner. Pershing came to attention and the entire square became motionless until the last note of the Anthem died away. From the crowd of onlookers behind the balcony square of soldiery came the sound of British voices singing.
Inside the Abbey, around the simple slab which marks the grave where Britain's unknown hero lies buried, stood premier David Lloyd George, Admiral Niblack, Ambassador Harvey who had preceded Pershing, Field Marshals Lord Haig, French and Allenby, Field Marshal Wilson and Robertson. Picked detachments of American soldiers and sailors, army navy and air force troops were lined up.
prostrate the grain business of the country and tie up the export trade according to Joseph P. Griffin, president of the Chicago Board of Trade.
Although the crop movement of the small grains such as wheat, oats, rye and barley from the farm to the elevators has been complete the strike will cripple movements from the large sources of supply to the ultimate consumer.
None of the corn crop has been moved, according to Griffin and complete demoralization of the marketing of this important crop looms.
Meat—Packing town—the great Chicago stock yards—will become idle soon after the strike is called which means that the million dollar-a-day business in live stock will be at a standstill.
With even a partial tie up, according to officials there can be little movement of livestock to the yards and of course little movement of dressed meats to feed the nation.
Fresh meat will be the first commodity to be missing from the family larder, packers declared.

INDEPENDENTS TO
BACK BIG UNIONS

Continued from Page One
Handlers, Express and Station Employees, was expected soon.
President Fitzgerald said his general chairmen were prepared to put their official sanction to the strike on a five minutes notice. The union has a 55,000 membership.
Only one official, the head of one of the smaller unions could be found who was not in favor of a strike.
This official stated he would "fight the strike tooth and nail" because the big brotherhoods "doublecrossed" the smaller nations by deciding to strike and then quit when their own demands were met. Other officials, however, pointed out that men in his union had voted to strike and the only thing he could do would be to concur.
H. P. Daugherty, vice chief of the Brotherhood of Locomotive Engineers, handled strike detail for the chiefs of the five brotherhoods, who are now back at their home offices. Daugherty is in charge of the strike headquarters in the consumers building. No inkling of defense plans of railroad executives was forthcoming. However, one executive of large line indicated it would be an easy matter to recruit workers from the quarter of a million jobless railroaders in the country.
The general public will be hard hit when the fight between railroad employees and executives gets under way.
This is how dealers in household necessities will be hit by the strike.
Coal—The coal bin of the public and big industries is practically empty. The impending railroad strike will cause the same fuel shortage as did the coal strike of 1919.
The public, according to H. S. Donald, secretary of the Illinois Coal Operators, buys its coal the latter part of October and November.
Donald said the big industries have a very meager supply on hand. Many companies pinched by the industrial depression have not been financially able to lay in large supplies. The high freight rates which added to the cost of coal also contributed to the unpreparedness of big consumers. Some companies working only part time haven't seen the necessity of filling their bins.
Chicago, Donald said, is the largest coal market in the world. More than 30,000,000 tons come to and pass through Chicago annually.
Coal miners would be among the first to be thrown out of work following the railroad strike. Coal is only mined when it can be moved.
Grain—The railroad strike will

TURBULENT HEARING IN THE KLAN HEARING
Imperial Wizard Simmons Makes Charge Against Rules Committee Head Which He Withdraws
ATTACKS THE NEWSPAPERS
(By United Press)
Washington, Oct. 17.—The house rules committee hearing on the Ku Klux Klan came to a turbulent ending today when Imperial Wizard Simmons charged on the stand that Representative Campbell, chief of the committee, had ridiculed Simmons collapse before the committee last Thursday as a cheap theatrical performance.
Campbell branded the statement as untrue, declaring that "this hearing would stop right here if that sort of thing was used as a defense." Campbell permitted Simmons to go on after he said he did not think that Campbell meant the statement.
Simmons launched into an attack against the newspapers, charging that they exposed the Klan. He also turned to Anderson Wright, former Klansman officer, who wrote a series of articles against the organization.
He asked the committee to recall Wright and probe into his police record and record in the army. Wright, Simmons charged, represented himself falsely as an overseas air service officer and wore a major's uniform which he was not entitled to wear.
Asked about distribution of initiation fees, Simmons said that \$8 of each \$10 fee went to Ed Young Clarke, imperial officer, and \$2 went into the treasury. In addition, he said Clarke received expense money.

Facing Another Menace

Of late we have noted dispatches from abroad predicting the early bankruptcy of the nations of Europe. It may even come to that extreme. It may provide a convenient method of wiping out the billions of dollars in debts that are hanging over governmental heads. Certainly not many on this side of the water would experience any great measure of surprise.

If these governments do go into bankruptcy what will be the result? Demoralization in their home countries and then one grand stampede for the fabled land of milk and honey—the United States.

Millions of frenzied men, pushing, shoving, fighting, tearing in a mad scramble to get into this country.

And shall we admit them indiscriminately?

All true American vote no.

We can worry along beautifully without adding to those we have.

We would be even better off if about two-thirds of them were sent back to the places whence they came.

We certainly don't want any more, unless they come to us with clean hands and with minds capable of remaining clean and loyal to this country.

There is more danger of Europe going bankrupt than most people believe. It is not only a possibility but is even a probability.

It, then, is incumbent upon congress and our immigration authorities to close the gates to them all, unless they can produce unimpeachable records as to character and demonstrate to our entire satisfaction that they are in such financial condition as to become assets in our midst instead of burdens and firebrands to the community.

High sounding phrases of confidence do not make a truth and neither does the waving of an indifferent hand ward off danger.

This is our country, and if we want to keep it as such we must begin without delay a rigid exclusion of that element that revels in a wild eyed dream of an overturned government and free gold for all.

On with the padlock and in with the key!

Don't become discouraged because the world fails to accept you at your own valuation. The Lord knows you as you are, and the rest of us don't count.

If the coming winter proves to be as severe as has been predicted we are in danger of losing our crop of coal barons. They will all become princes.

An honest effort that ends in failure is better than no effort at all. It supplies the experience that paves the way to future success.

Of course, if short dresses and bare knees remain in style the north can always drift south for the winter months.

There is only one thing that prevents the average wife from saving money. She can't save what she doesn't get.

As prices go down, buildings go up, thus exemplifying the well known law of economic equilibrium.

Many people are blessed with good dispositions and cursed with an inability to retain them.

THE MASCOT

COMBINATION RANGE surpasses other ranges in another important particular. Years of study by experts have perfected a gas oven that is incomparably more EFFICIENT than any ever before devised.

In the MASCOT Combination Ranges, where coal or wood is used the heat still goes all around the oven, so in the Mascot combination the makers have fully realized their ambition to make a range that would be the last word in efficiency in the use of gas, coal or wood. Our years of study and experiment with the Mascot Range truly resulted in the greatest achievement known in the manufacture of ranges.

The Mascot Combination is ready for the use of either gas, coal or wood or ALL at the same time. When gas is used as a fuel it is ready for use when you turn on the gas.

No dampers or triggers, no cold spots in oven when using coal or wood. See the air in-take on the range. When you turn on the gas you open the air in-take and when you turn off the gas you close the air in-take.

ALLEGED LIBEL SUIT THROWN OUT OF COURT

City of Chicago Brought Action for \$10,000 Against The Chicago Tribune For Alleged Statements

JUDGE UPHELD DEMURRER

(By United Press)

Chicago, Oct. 17—The suit for \$10,000,000, brought by the City of Chicago against the Chicago Tribune for alleged libel, was thrown out of court by Circuit Court Judge Harry M. Fisher.

Judge Fisher upheld the demurrer filed by the Tribune to the suit.

The suit was based on statements made by the Tribune that the city was bankrupt, which officials held injured the financial status of the city and it was unable to dispose of bonds.

"This suit is not in harmony with the genius, spirit or object of our institutions," Judge Fisher declared.

"It does not belong to our day, but rather to the day when monarchs promulgated laws with the purpose of carrying out their lustful passion for undisturbed power.

"Since no cause for action exists, it is unnecessary to consider any of the other questions involved in the arguments."

COSTS MORE TO RUN STATE

Government Expense Twice as Much in 1921 as 1917

Indianapolis, Ind., Oct. 17—It costs almost twice as much to run the state government during the fiscal year ending September 30, 1921, as it did for the fiscal year ending September 30, 1917, according to figures revealed today at the office of the state auditor here.

Expenditures this year exceeded receipts the figures showed. The balance on hand September 30 was \$3,039,490.91, a reduction from \$4,568,397.37 on hand at the close of the preceding fiscal year.

Gross disbursements for the last fiscal year were \$28,420,215.87 compared with gross receipts of \$26,891,371.60. Disbursements at the end of the fiscal year in 1917 were \$14,361,804.

**BUTLER PLANS A
HOMECOMING DAY**

Celebration Will be Held on October
22 With Special Feature Planned
For The Day

FORMER STUDENTS PARTAKE

Football Clash With Earlham Will
be Among The Big Things of
Interest on Program

Indianapolis, Ind., Oct. 17.—The stage is being set at Butler University for the Homecoming Day celebration which is to be held on Saturday, October 22nd. Many splendid features are being planned for the huge affair which will last throughout the entire day, starting early in the morning and ending late at night. All former students of Butler will return to their Alma Mater and a program providing for a good time for all is being arranged.

The feature of the day will be the annual Butler-Earlham football clash. Immediately following the gridiron contest, a huge demonstration will be held where old timers and the present pigskin tossers will take the leading role. Earlham is expected to be a tough card for the Blue and White eleven this year as seven of their last season's squad are back in harness.

The Butler team which is the best that the Indianapolis institution has ever turned out and which has two wonderful victories already chalked up for this year, will probably find the sledding a little rougher during the remainder of their schedule than the opening affairs have been. With Earlham, Wabash, and the Michigan Aggies on consecutive week-ends, the Pagemen will certainly have their hands full if they turn in even two victories out of the three battles.

Coach Page's men surprised all Ohio when the strong Dennison eleven was defeated in the opening game for both of the schools and even Butler supporters were astonished when the Bulldogs won over Rose Poly last Saturday by a 70 to 6 score. By winning the Rose game, the Butler squad has a flying starter toward again winning the I. C. A. L. championship.

The complete program for the Homecoming Day has been announced by the faculty and will include the following: Morning session, procession and parade on downtown streets; Noon, all fraternity houses open for visitors; 2:30 Butler vs Earlham; 5:30, barbeque in Gym.; and evening huge frolic on campus and vaudeville in Gym. The complete program will be carried out regardless of the outcome of the game.

**ELUDES POSSES AND
THEN KILLS HIMSELF**

George Haskett, 22, Who Killed
Phineas Lind and Daughter,
Found Dead Near Seymour

WAS JILTED BY THE GIRL

Seymour, Ind., Oct. 17.—Eluding four armed posses after he had killed the girl he loved and her father, George Haskett, 22, put a bullet into his own brain on the Owen Stanfield farm four miles away.

The posses had searched for Haskett throughout Saturday night after he had killed Phineas Lind, 65, and his daughter Miss Nellie Lind, a pretty school teacher 24 years of age.

Haskett had repeatedly tried to force his attentions on Miss Lind. She attempted to repulse him and when she failed her father interfered. It is presumed Haskett resumed his urgent courting at the Lind farm home Saturday and that when the father ordered him away he shot the aged man, later killing the girl because she refused to accompany him.

The posses scoured the woods until after daybreak Sunday. Later Haskett fatigued and harrassed told his story to Owen Stanfield who used to work for Haskett's father. Stanfield ordered him from the place and later found his lifeless body when he went to feed the stock.

\$65 FOR SALVATION ARMY

Fifth Inning Proves Big One When
Tail Lights Bat Around and Byrne
Hits Homer

The Tail Lights defeated the All Stars here Sunday afternoon in a game in which heavy hitting featured, the score being 18 to 8, and with the Salvation Army receiving \$65 which was the proceeds after the expenses had been deducted.

The two teams hit the ball freely, and at first the All Stars got a lead of three points and soon had the score 5 to 2 in their favor, but the Tail Lights got busy with hits, and in the fifth inning went ahead on their eight runs.

Williams started to pitch for the All Stars but was wild and after one out was made, he was relieved by McCarty, who held things in sway until the fifth inning when the Tail Lights got to him and batted around for the eight runs. McCarty was followed by Hobart and then Yazel finished the game.

The Tail Lights started off with Bramel, who held the All Stars to a few runs, and he was replaced by Schmall, and Bennett finished the game in the eighth and ninth innings.

The two teams fought hard all of the way through, and the Tail Lights presented a shifted line-up from the usual players, with Shaw and Smith out of the game, and with Sharp playing short for a time, and Bennett in the field and on the mound. Pearsey played first, and Joyce was on third, and Nick Tompkins held down second.

The big inning took place in the fifth when Byrne, first up singled past third. Sharp was safe on an infield hit. Pearsey filled the bases when Clevenger let the ball get through him. Tompkins bunted, Hobart fumbled and Byrne scored. Schmall hit to right, scoring Sharp, Pearsey, and Tompkins. Bramel fanned for the first out. Conway fanned also. A Joyce singled over second. Bennett doubled to right scoring Schmall and Joyce. Byrne knocked the ball over left field fence scoring Bennett ahead of him. Sharp singled to left above third and Pearsey fanned for the third out.

The game yesterday ended the season for the Tail Lights, and it is expected that they will again be in the field next season.

WINS BY A LONE TOUCHDOWN

Arlington A. C. Football Team De-
feats Greenfield Sunday

The Arlington A. C's defeated the Greenfield football team yesterday on the Arlington grounds by a score of 6 to 0, Metsker going over in the third quarter for the only touchdown with a neat forward pass. The entire game was very hard fought before the largest crowd that ever witnessed a football game in Arlington. Caron and Rhone were effective in passes and the entire Arlington team has shown great improvements. Next Sunday Arlington will play the strong Ferndale club of Indianapolis at Indianapolis. This team has not been scored on this year.

PASSES 92ND BIRTHDAY

**SAYS BASEBALL LAW
WILL BE ENFORCED**

Commissioner Landis Takes Under
Consideration Infraction of Rules
by Ruth and Others

ON A BARNSTORMING TRIP

Chicago, Oct. 17.—Baseball law must be enforced" Judge Kenesaw Mountain Landis, supreme dictator of organized baseball thundered today when he arrived in Chicago.

Arriving at his office, Judge Landis took under advisement the alleged violation of baseball law by Babe Ruth, Bob Meusel and Bill Piercy, of the New York Yankees, who are barnstorming in New York state contrary to the rule which prohibits players who have engaged in a world series from playing in post season games.

"Ruth, on the face of evidence I have has violated provisions of the baseball law that I had no hand in making", said Landis. "I inherited the rules of the game when I became head of the baseball and I am going to see that the rules are enforced."

"On the fact of things Ruth has violated that section of the world's series agreements which forbids participants in the worlds series to play after the series is over."

"I want to give this message to law abiding baseball players and to the public—Baseball law will be enforced."

The judge said he would give the case and all the evidence involved his closest consideration before announcing his decision.

Landis, in his high position, can suspend Ruth and the others for a period of time and outlaw them forever from organized baseball.

AMUSEMENTS

Owen Moore at The Princess

"A Divorce of Convenience", with Owen Moore in another of his delightful comedy characterizations will be the feature photoplay attractions at the Princess theatre today and tomorrow.

The story is one that was written especially for Mr. Moore by Victor Heerman, who both wrote and directed Owen Moore in his recent triumph, "The Chicken in the Case". Photoplay fans who witnessed that performance remember it as one of the bright comedy features of the past year. In constructing this new farce the author concentrated his efforts about the particular talents of the star with the result that no picture in which Mr. Moore has yet appeared was quite as suitable for him.

"A Divorce of Convenience" is straight comedy of the farcical variety that was made for laughing purposes only. No other star of the screen is better qualified for this line of work than Mr. Moore and the result, it is said, is a picture that will satisfy everyone.

In this production, which was directed by Robert Ellis, the star is supported by two leading ladies, Katherine Perry and Nita Naldi and the balance of the cast includes George A. Lessey, Frank Wunderlee, Dan Duffy and Charles Craig.

"Black Roses" at the Mystic

In "Black Roses", his latest Robertson-Cole production, Sessue Hayakawa, distinguished Japanese star, is seen for the first time in many months in a photoplay laid entirely in America. The fact, however, that the action of the story takes place in only one country, does not deprive it of any picturesque effect. The same artistry with which every Hayakawa production is invested is paramount in "Black Roses" which opens at the Mystic theatre today and continues Tuesday.

During the course of the production Hayakawa is seen in three distinct characterizations, first as a happy-go-lucky gardener on the estate of a millionaire; next as a hardened victim of circumstances when by false evidence he is convicted of a murder he never committed, and finally as a Chinese Prince moving in the highest circles of society where he succeeds in finding and punishing those who were responsible for his life's tragedy.

In "Black Roses", Mr. Hayakawa is supported by one of the strongest casts ever assembled for a motion picture. Tsuru Aoki, a star in her own right, and in private life Mrs. Sessue Hayakawa is seen in the leading feminine role.

Recital Tonight

The following program will be given tonight at eight o'clock at the organ recital by Charles F. Hansen, the blind organist of the Second Presbyterian church, Indianapolis, at the First United Presbyterian church: Fantasia in C—Tours Bridal Song—Jensen. Prelude and Fugue in G. Major—Mendelssohn

would have continued for some time yet if the strike threat had not been issued. He came to Indiana primarily for an Americanization meeting at Elwood where he was born and reared.

Aircraft May be Used

Kansas City Mo., Oct. 17—Twelve hundred aircraft will be available to carry notables and delegates to the American Legion convention beginning here Oct. 31, if the railroad strike becomes effective, the aviation committee of the Legion notified the convention committee today.

Many big passenger planes will enter in the air derby to be held, flying to Kansas City from their home stations, and it was declared these could carry many delegates. Airplanes are available to bring Marshal Foch from New York.

No Trouble Anticipated

Detroit, Mich., Oct. 17—Detroit would have no difficulties in solving its food problems in event of a rail strike, city authorities said today. Food would be shipped in from outlying farm districts by motor trucks it was said.

Terre Haute, Ind.—John Peterson's glass eye was wrecked when some terra cotta collided with his face. His good eye was uninjured.

Bright Spots in News

South Bend Ind.—Every child in the Orphans Home near here was taken to see "The Kid." Since then the home has been forced to spend \$75 for broken windows.

Joliet Ill.—Ordered to leave town by a police judge, two pan-handlers refused the judge's offer of an escort to the city limits. They summoned their chauffeur, climbed into a large automobile and drove away.

Indianapolis—S. L. Adams, 50, left his clothes behind as he dashed from the home of O. L. Meyers just as Meyers entered the door. He even forgot his automobile and from the license number the police found him.

New York—Stephen Price, charged with beating John McGee said the latter was flirting with Mrs. Price. "Any woman who is the mother of eleven children has neither time nor inclination to flirt," the court ruled.

EMBEZZLEMENT CHARGED

Chicago, Oct. 17.—L. N. Kolland, cashier of the Hanover Union State bank at Hanover, Illinois, was arrested today, charged with embezzling \$75,000 of the bank's funds. He is alleged to have "kited" checks.

HOUSEWORK IS A BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Rushville women. Read what Mrs. W. A. Wylie 824 N. Arthur St. Rushville gave the following statement September 20, 1915: "I never had kidney trouble until quite recently but now I appreciate what a serious complaint it is and how severely one can suffer with it."

My trouble began with a churning digging pain directly across the kidneys and over my hips. The pain was terrible and I had to be given pain-easing tablets by the doctor to relieve it. I was utterly unable to do my housework for a week and was in all kinds of misery. Others of my family had taken Doan's Kidney Pills with excellent result so I began using them. I got them and did not have to use a whole box before the pain across my back let up and soon disappeared."

On November 4 1920 Mrs. Wylie said: "I still have the same high opinion of Doan's Kidney Pills. I haven't had to use them for the past few years as my cure has been a lasting one."

AMERICA MAY MEDIATE IN SHANTUNG FIGHT

If Japan Makes Formal Request of U. S. It Probably Will be Accepted, It Was Stated

THROUGH SECRETARY OF STATE

(By United Press)

Washington, Oct. 17.—America may mediate the Shantung controversy between Japan and China, it was learned today.

If Japan makes a formal request of the United States to undertake mediation of the Shantung problem, it probably will be accepted according to a statement in authoritative quarters here.

Japanese Ambassador Shidehara has informally "approached" secretary of State Hughes on the subject of American mediation.

It is believed that if mediation were undertaken it would be through Secretary of State Hughes.

Authoritative quarters here pointed out that a request from Japan for mediation would be more likely to be agreed to by this government than a request that the United States arbitrate the Shantung problem.

Arbitration would place upon this government a grave responsibility for handing down a definite decision in the Shantung controversy, a responsibility which it is not believed the U. S. is ready to shoulder. Mediation, on the other hand, would simply mean that the United States would use its good offices to bring about a settlement of the Shantung issue.

Former Rushville Woman's Romance Blighted by Husband's Memory Lapse

Continued from Page One
Fish's mental illness. But it remained fast and it has grown at last into the stronger bond of wedlock.

The story, stranger than fiction, came to light yesterday when it was announced that Fish had formally adopted his wife's daughter, Ruth McCloud, in Department 8 of the Superior Court.

"I want to make sure," he explained, "that no contest which might arise over my will would jeopardize her property interests."

"Her mother and I lost three precious years. She means as much to me as would my own daughter. That's why."

Fish is a combustion expert and inventor. Ten years ago his best friend was Fred McCloud, then auditor for an automobile-lighting concern. They were inseparable.

McCloud sickened and feared death. One day he called Fish to his bedside.

"George," he said, "I'm afraid it's all over with me. I want you to promise to look out for Esther and Ruth." Esther was McCloud's wife. "Take care of them, will you, old man?"

Fish promised.

The next day McCloud died.

"After some time," said Mrs. Fish yesterday, "George asked me to marry him and I consented. We were to be married in October, 1916, and George came West on a business trip in September."

He was driving through California. He remembers it distinctly. It was a cloudy, dark day, toward evening. His small car was parked beside a road near San Jose. He sat at the wheel making notations in a small book.

Engrossed in his work, he heard only indistinctly the increasing roar of a powerful motor. He was half through a long column of figures when something snapped, lights flashed before his eyes—and he woke up in a spinal expert's office three years later.

Of what transpired during the three years his brain didn't function. Fish knows only what he has been told, and what he could gather from papers, letters and notations he found in his pockets. But this seems to be the story:

He was found 127 feet from the wreckage of his automobile. He was unconscious, limp, bleeding profusely. He was rushed to the San Jose Sanitarium. Doctors labored over him—and gave him up.

To all appearances and tests, he died that night. He was taken away in an undertaker's machine, undressed and placed on a slab in the morgue. Telegrams were sent to his friends. The mortician raised his knife, lowered it. The first cut was on the right arm.

And then the undertaker paused, startled, dumfounded. For he detected signs of life in the body.

Doctors rushed to the morgue, sewed the wound and began once more their fight for Fish's life. He was taken back to the sanitarium.

And three months later he walked out of the institution, apparently cured and sane.

He had forgotten Mrs. McCloud,

forgotten every detail of his former life. He had forgotten where he lived his friends—and remembered his name only because it was written on letters and books in his pockets. He doesn't remember any of that today. His life, apparently began anew on the undertaker's slab in the morgue.

He traveled extensively; he doesn't know why. He was in Chicago once. Mrs. McCloud saw him in 1917 while she was there visiting a friend, Mrs. Virginia Wallace. He was there ten days.

He went to New York, New Orleans, San Francisco, Los Angeles—all over the country. He stopped at the best hotels, lived normally and sanely.

He may have continued his inventive works; he doesn't know.

He doesn't know how he came to be in a spinal expert's office at Modesto in 1919.

But his brain snapped back into place on an adjusting table there, and his first words were:

"—fourteen, sixteen, twenty—What where—"

And so his life began anew that day—or rather, his first life continued where it had been snapped off.

Mrs. McCloud had been trying to locate him. She had written letters to the hotel at San Francisco where he always stopped, and they came back unopened. She had written his friends; they hadn't seen him.

And then that spring day, two years ago, came a telegram from Dr. C. E. Eddy of Modesto, dictated by Fish.

"Please come to me," the message said.

"We left that night," said Mrs. Fish. "My daughter and I. My father, James A. Kratzer, a judge at Rushville, Ind., came with us. We nursed George for ten months before he was able to be up and around. And then we were married."

Judge William H. Langdon of San Francisco, presiding justice of the court of appeals, is an old friend of Mr. Fish. He it was who took him to the expert at Modesto who brought him back to himself—and to me."

Mrs. Fish is well known throughout Indiana, where her parents have lived for many years. She has an unusually clear soprano voice, and through musicales and concerts came to be known as the "Hoosier Nightingale."

Fish was born at Shoals, near French Lick Springs, Indiana, and has spent several fortunes in the course of his experiments.

STAFFORD HAS WON A LONG HARD FIGHT

Fort Wayne Man Says He Feels Years Younger Since Getting Rid of Troubles

"Since Tanlac made a clean sweep of my troubles I'm feeling years younger," said James Stafford, 201 South Seventh St., Ft. Wayne, Ind. "When a man has had a long, hard fight with stomach trouble like I have he certainly knows how to appreciate good health. I dreaded to see night come, because instead of meaning rest for me it meant hours of rolling and tossing from one side of the bed to the other. My liver was sluggish and I felt weak and listless all the time."

"My son tried Tanlac and it did such good work for him I started taking it and it helped me wonderfully too. I eat three big, hearty meals a day now and am never bothered a bit afterwards. I'm as sound as a dollar, just feel fine all the time and never miss a day from work now."

Tanlac is sold in Rushville by F. B. Johnson Drug Co. and by leading druggists everywhere. Advertisement

NOTICE TO NON-RESIDENTS.

State of Indiana, County of Rush, Rush Circuit Court, 1921.
Charles S. Winslow vs. James Cephas Griffin, et al.
No. 2332.

Suit to Quiet Title to Real Estate.
The plaintiff in the above entitled cause having filed his complaint therein, together with an affidavit of Douglas Morris, his attorney, that the following named defendants in said action, which is a suit to quiet title to real estate, are necessary parties to said action, and are non-residents of the state of Indiana, do to-wit:

Grace Henn, George Henn, Charles Griffin, Gussie Griffin, Ida Graves, Clinton Graves, Dahlia Robbins, Willis Robbins, Mary Allison, Leonard Allison, John Griffin, Robert Megee, Walter Megee Cook, Estelle Gilboe.

Now, therefore, each of said defendants is hereby notified that said cause is set for hearing and judgment on Monday, November 21, 1921, at the court room, in the court house at Rushville, Rush county, Indiana, and that unless each of said defendants appear at said time and place, and answer or demur to said complaint, that the same will be heard and determined in his or her absence.

Said November 21, 1921, being the first day of the November, 1921, term of said Rush Circuit Court.

In witness whereof I have hereunto set my hand and the seal of said court on this 24th day of September, 1921.

LOREN MARTIN, Clerk
Circuit Court of Rush County, Ind.

WHAT IS A ONE CENT SALE?

It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Tooth Paste is 25c. You buy a tube at this price, and by paying 1c more, or 26c, you get two tubes. Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING

This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1 cent. It costs money to get new customers, the loss taken on this sale will be well spent if the goods please you.

UNION HEADS DELAY MEETING

Postponement of Session to Make
Final Plans For Strike is
Regarded as Significant

(By United Press)

Moves to prevent a nation-wide
strike and preparations to meet it if
it materializes were made today.

With assurances from high Wash-
ington officials that railroads would
be kept running, President Harding
had under consideration the calling
of a conference of railroad men
and executives to avert the strike.

When union leaders in Cleveland
were informed of the conference
plan, they said they would answer
the call to attend if President Hard-
ing sent it out.

At the same time from the head-
quarters in Chicago and Cleveland,
the railroad union men went ahead
with strike preparations such as
sending out of the formal call for
the walkout beginning progressively
on October 30. In Chicago a meet-
ing of unions other than the big
four brotherhoods was planned.

Throughout the country today
mayors and governors prepared for
measures to prevent any shortage of
food and fuel because of the strike.

Despite advice to the contrary
from Chicago coal men a poll of
large cities indicated there was
enough of a coal supply to run for
several weeks at least.

Food stocks generally are not low
although many of the smaller cities
without large storage facilities
might be inconvenienced.

Mobilization of motor trucks to
haul food in case they are needed
was the plan hit upon in practi-
cally every city. Kansas City was
preparing to use airplanes.

It is not believed, however, that
the hauling of milk and other per-
ishables will be interfered with.

Industries in every section of the
country will be affected by a strike.

Cleveland, Ohio, Oct. 17.—Meet-
ing of railroad union heads to make
final plans for the October 30 strike
was postponed today until Wednes-
day. It had been scheduled for
Tuesday.

While no explanation of the de-
lay was forthcoming from union
chiefs, the delay was considered
significant in view of the probable
proposal of President Harding to
summon the labor leaders to Wash-
ington for a conference with the em-
ployers.

Several of the union heads, in-
cluding Warren S. Stone and W. G.
Lee, declared that if President
Harding asked them to Washington
for a conference they would go
willingly.

Lee said:
"The situation is entirely out of
the hands of the Brotherhood chiefs.
We have no choice but to bow to the
will of the men who voted over-
whelmingly for a strike. If the gov-
ernment should step in, however,
and rule in our favor, that would
be a different matter."

"As I see it, the promise of a
freight rate reduction if the em-
ployees would consent to another
cut would be about as noticeable
as that which followed the July cut."
The railway unions figuratively
turned their backs today on what
apparently was the last chance to
avert the general strike called for
October 30.

Warren S. Stone, grand chief of
the Brotherhood of Locomotive En-
gineers, summed up their attitude
toward the compromise proposed of
the public group of the railway la-
bor board when he tersely exclaimed:
"It isn't feasible."

This proposal was that wage re-
ductions authorized July 1 should

Says Mails Will Move

Washington, Oct. 17.—"The mail
will be moved," Postmaster General
Hays declared today in the first of-
ficial statement on the railway
strike from government officials here.

Hays declared that if the con-
troversy developed to the point of
making drastic action necessary,
there will be action. "I am sure that
parties others than those in the con-
troversy will not permit development
which will interfere with the gov-
ernment service," said Hays.

"This is no time for a statement
from this department. A time may
come for action. I sincerely trust it
will not, but if it does, the mail
will be moved."

Members of the public group of the
railway labor board who met last
night and put forth the suggestion
of solution of the trouble with Pres-
ident Harding's approval, met with
the interstate commerce commission
a 2 p. m. for a general discussion
of the matter.

The railroads can not agree to
the labor board's suggestion that
the lines change the 12 percent wage
reduction of last July into imme-
diate rate reductions. It would mean
bankruptcy, it was said.

be reflected immediately in freight
cuts and that further wage reduc-
tions should be postponed indefi-
nitely.

Plenty of Fuel and Coal

Milwaukee, Wis., Oct. 17.—A sur-
vey of conditions in and around
Milwaukee by the Association of
Commerce brings out the announce-
ment that even though a rail strike
is called this city will suffer very
little from lack of fuel and coal.

To Use Motor Trucks

St. Paul, Oct. 17.—With trade
traffic shut off by a railroad strike
practically all motor trucks engaged
in wholesale and retail commerce
could be thrown into the breach and
maintain distribution of necessities
within a radius of 100 miles of the
Twin Cities, commercial bodies of
St. Paul and Minneapolis said to-
day.

Indianapolis Not Worried

Indianapolis, Ind., Oct. 17.—Rail-
road executives and union chiefs in
Indianapolis were still hopeful today
that the nation-wide strike set for
October 30 could be averted. Both
sides expressed the hope that the
conference in Washington would de-
vise some means to bring a peace-
ful end to their differences.

If the strike does come it won't
hit Indianapolis very hard, accord-
ing to dealers in food and coal. The
food supply is sufficient to carry
the city through a strike of two
months and the coal reserve will
last through half the winter, it was
said.

Chicago Won't Suffer

Chicago, Oct. 17.—Chicago, the
granary of the world, would not
suffer from a railroad strike it was
stated by the Association of Com-
merce today.

Large stores of grain and food,
out of which the nation is fed,
would be used to feed Chicago when
shipments to the outside would
close. Large supplies of meats, of
course, are on hand at the stock
yards.

Chicago is the coal center of the
nation and an abundant supply is
held here.

Called to Washington

Indianapolis, Ind., Oct. 17.—Sec-
retary of Labor James J. Davis was
speeding to Washington today in
response to a telegram from Presi-
dent Harding summoning him there
in view of the serious situation
arising from the threatened railroad
strike.

The secretary said he had been
advised by President Harding to
"say nothing" regarding the threat
and he refused to comment in any
way.

Secretary Davis had been touring
Indiana on a vacation trip, which

Cleveland, Ohio, Oct. 17.—The
groups by which the railway work-
ers will be called out were reported
this afternoon. The Big Four is in
group No. 3, 6 a. m. November 3.
The make-up of the balance of the
third and fourth groups could not
be ascertained but it was said it in-
cluded the remaining railroads of
the country so that every line will
be affected by November 5.

INDEPENDENTS TO BACK BIG UNIONS

Big Labor Leaders Strive to Mass
Workers Into Solid Front For
Oct. 30 Railroad Strike

GENERAL CHAIRMAN MEET

Leaders of Twenty Odd Smaller Un-
ions, Whose Members Voted to
Strike, in Session Today

By CARL VICTOR LITTLE
(U. P. Staff Correspondent)

Chicago, Oct. 17.—Big labor lead-
ers today strove to mass workers
into a solid front for the October
30 railroad strike.

Most independent unions, not af-
filiated with the five big brotherhoods,
but having doubled their member-
ship, planned to back the big lead-
ers in the walkout in protest against
wage slashes announced by railroad
executives.

General chairmen of several of
twenty odd smaller unions, having an
aggregate membership of one million
met today. Others are scheduled to
meet this week.

Canvasses of these unions showed
that their membership did the same
as all big unions—voted overwhelm-
ingly in favor of a strike. Throw-
ing of their strength with the bro-
therhoods would be a mere formal-
ity, it was indicated.

Bert M. Jewell, president of the
railway department of the American
Federation of Labor which com-
prises the thirteen distinct unions
belonging to the federated shop
crafts formulated his strike plans
and instructions with his cabinet
today, it became known.

Jewell's division of railroad uni-
onism—a half a million strong—
was the first to vote to strike and
have been hanging back for support
from the brotherhoods.

The order of railway telegraphers
are prepared, Vice President T. M.
Pierson stated. "The operators, 81,
000 strong, stand back of the
Brotherhoods," he said.

therhood of Railway Clerks, Freight

COPY FOR BALLOTS READY

The copy for ballots to be used
in the city election Tuesday Novem-
ber 8, was delivered to the printers
today by Earl Osborne, city clerk
and member of the election com-
mission, following a meeting of the
republican city committee Saturday
night, at which time a change was
made in the Republican ticket.

At the meeting of the committee,
the resignation of Councilman E.
A. Lee, republican candidate for
council in the second ward, was pre-
sented and accepted, and George
Wingerter was nominated to fill
the vacancy on the ticket, as provi-
ded by law. Mr. Lee, who is the
present councilman from the second
ward, had to withdraw from the
race on account of serious illness.

The election commission, which
composed of Guy Mulharger, demo-
crat and Vern Norris republican and
the city clerk, met Sunday and
prepared the copy for the ballots
so that they may be printed at the
earliest possible date.

HIGHWAYMAN IS CAPTURED HERE

Roy Scott, Colored, Wanted in
Springfield, O., For Robbery
Arrested by Police

TAKEN TO SPRINGFIELD TODAY

Scott Informs Authorities Where
Companion Was in Hiding and
He is Caught at Richmond

A negro said to be Roy Scott, who
is wanted in Springfield, O., on a
charge of highway robbery, was
captured here late Saturday after-
noon, and placed in jail, and was
turned over this morning to the po-
lice of that city and taken there to
answer to several charges.

Friday the police received a form
letter sent out by the police de-
partment of that city, which con-
tained a photograph of two col-
ored men, both wanted for highway
robbery, and Scott was recognized
as being the colored man who had
been seen here for several weeks.

Late Friday night Patrolmen
Jenkins and Nicholson went to the
home of Mrs. Nancy Hodgins in the
northeast portion of the city, where
they had been told that the man was
staying, as he had married Mrs.
Hodgins' daughter. The man at this
time is said to have made his es-
cape through the rear door.

Saturday afternoon late, Patrol-
man Nicholson received a "tip" that
he was in a house near the I. & C.
power house, and he and Fireman
Leslie Downey went to the place
where Scott was located hiding in
a closet.

As soon as he was arrested, he
admitted to the officers that he was
the man wanted in Springfield, and
he also told the police that they
would find Roy Cheek, his compan-
ion, in Richmond. The authorities
in that city arrested him a few
hours later.

City Detective George Abele of
Springfield arrived here shortly be-
fore noon with a warrant charging
the two men with highway robbery
on the night of July 1. The officer
stated that the two colored men at-
tacked E. D. Lyle and Miss Ina
Rockwell in a park in that city, and
that \$15 in money and a watch were
stolen from the man who was bad-
ly beaten by the thugs.

Miss Rockwell also was handled
roughly and her wrist watch and
jewelry taken, according to the af-
fidavit which he had with him. The
two people gave a description of
the colored men, and as they each
had served terms in the Ohio peni-
tentiary their photographs were ob-
tained and information concerning
their arrest was sent broadcast,
with the letter reaching here Fri-
day.

The detective stated that in all
probability charges of assault and
battery with intent would be filed as

GEORGE ALLEN TO SERVE SENTENCE

Alpine Man Sentenced to Reforma-
tory For Grand Larceny Sept. 7
Violates His Promise

4 MORE HOMER MEN FINED

James Cassady, William Ennis,
Claude Collins Faun Miller Pleads
Guilty to Stealing Water Melons

George Allen, age 23 years, who
pleaded guilty in the circuit court
here September 7 to a charge of
grand larceny, and to which he was
given a suspended sentence during
good behavior, was again arrested
Saturday afternoon and this morn-
ing his sentence of from 1 to 14
years was revoked for violation of
his promises to Judge Sparks.

Allen, it will be recalled, admitted
taking \$50 from Mrs. Mary Nestle
of West Ninth street, and as it was
his first appearance here, he was
given his freedom upon promises
that he would return to his home in
Alpine and not come to Rushville
within the next two years, and that
he would also behave himself.

He was arrested for intoxication
in Connersville and was in jail there
where Sheriff Jones went to arrest
him Saturday. His promise of not
returning to Rushville was broken,
as the court record states that he
has frequently been in Rushville at
night and visited houses of ill re-
pute.

He was again taken in jail today
and he will be taken to Jeffersonville
to serve his sentence on the former
charge. It was stated that he was
the "ring leader" in the recent jail
delivery here in which eight prison-
ers made their escape, but were
caught.

Other grand jury indictments were
served Saturday and today, which
resulted in the arrest of James
Cassady, William Ennis, Claude
Collins and Faun Miller, all of near
Homer, who pleaded guilty to the
charges of carrying off products, or
watermelons, from the land of Ed
Lowden. Four others pleaded guilty
to the same charge Saturday, mak-
ing eight in all.

Their fines were assessed at \$1
and costs, or \$10.30 in each case.

John Ricker, was re-arrested on
three grand jury indictments charg-
ing the same as affidavits to which
he already had pleaded not guilty.
The charges were for encouraging
delinquency, unlawfully giving away
liquor, and giving liquor to a minor.
The bond on each case was \$250
and was provided with security.

Genard Goodin and Earl Hall, al-
so were among those indicted on
similar charges upon which they
had been arrested on affidavits
charging grand larceny, and they

I. O. O. F. LINE OF MARCH ANNOUNCED

First Division Will Consist of Rush
County Rebekahs and Will be
Led by Arlington Band

ODD FELLOWS IN SECOND

Fireworks Will be Distributed as
Marchers Pass Fifth Street
—1,000 Expected in Line

All owners of vehicles of
any kind are hereby instructed
not to park in Main street
from First to Fourth streets
Wednesday evening after six
o'clock in order to leave the
street clear for the county Odd
Fellows Parade.
ARVEY WILFONG,
Chief of Police.

At a meeting of the committee hav-
ing in charge the Odd Fellows pa-
rade to be held next Wednesday eve-
ning, it was announced that ar-
rangements had been made with the
city officials to clear Main Street
of all vehicles from Fourth to First
streets. No one will be permitted to
park in the restricted district after
6 p. m. and those already parked
there will be required to move their
machines until after the parade.

The parade, under command of
Harry Petry, grand marshal, will
move promptly at 7:15—the Arling-
ton band leading the first division
consisting of Rush County Rebekahs
and their floats representing the de-
gree and the principles of the order;
the second division will follow, led
by the Odd Fellows band and will
consist of Odd Fellows and the floats
representing the subordinate lodges.

The line of march has been an-
nounced as follows: Forming in
North Main above Fifth street, Re-
bekahs on west side of Main and
Odd Fellows on the east side, south
in Main to First; west in First to
Morgan, north to Second, east to
Main, countermarch to Third, west
to Morgan and disband, the Rebe-
kahs assembling at the Woodmen
hall and the Odd Fellows at the hall
of Franklin Lodge.

Both the above named halls will
be closed until after the parade, as-
suring the participants an equal
chance with others of gaining admis-
sion to the meeting places which are
expected to be crowded.

The fireworks will be distributed—

IMITATORS OF THE ARMY VISIT THE CITY

Envoy Ellis Urges People to Beware
of Organizations Which do no
Relief Work Here

TWO OF WORST OFFENDERS

The local corps of the Salvation
Army has had much trouble lately
with imitators, according to Envoy
Ellis. During the past week several
organizations which pose as the
Army wherever possible, have had
representatives in Rushville collect-
ing funds.

Envoy Ellis said that he would not
object if the money collected were to
be used for local relief work, but
he pointed out that every cent these
organizations get here goes to Ind-
ianapolis at a time when there is a
great need for relief among Rush-
ville people.

The local Army leader pointed
out that these organizations imitate
the Army in dress and even to car-
rying a tambourine, in order to
carry out the deception and profit
by the Army's popularity with the
people. He warned Rushville people
to make sure that solicitors seeking
funds had the Salvation Army bands
about their caps. The American
Rescue Workers and the Good Sa-
maritan Army were the worst of-
fenders, Envoy Ellis said.

The Army workers expressed gra-
titude today for the check for \$65.91
which was received today as net
proceeds from the benefit base ball
game yesterday.

Former Rushville Woman's Romance Blighted by Husband's Memory Lapse

Strange Love Story Unfolded When
George L. Fish, Husband of Mrs.
Esther Kratzer-McCloud, Adopts
Ruth McCloud. Fish's Mind Blank
For Three Years Following Auto-
mobile Accident, After Which He
Was Pronounced Dead.

A love story stranger than fiction,
involving Mrs. Esther McCloud-Fish
formerly Miss Esther Kratzer of this
city, has come to light in Los An-
geles, California, according to a
story in the Los Angeles Examiner,
received here, which dramatically re-
cites how Mrs. McCloud and Fish
were reunited following a three-year
memory lapse which threatened to
spoil the romance. Fish's mind was
a blank for three years after he was
injured in an automobile accident
and first pronounced dead.

The story is told as follows by the
Examiner:
An undertaker's incision remains a
white scar on the firm flesh of the
right arm of George Leander Fish,
47, of Long Beach.

It was made in a white-tiled mor-

gue five years ago, when Fish, to all
medical tests, was dead.

He carries in his pocket the death
certificate made out for him and
signed at that time.

He has cancelled checks, which
were given in payment for his fun-
eral and his grave, and receipts
therefor.

Flowers—withered now and pressed
in his home—were fresh when
sent by his fraternal society brothers
for his funeral.

His skull had been fractured,
twenty-one bones broken and his
neck dislocated in three places, Sep-
tember 24, 1916, when a big motor
car crashed into and wrecked his
smaller automobile near San Jose.

He left the Garden City Sanitar-
ium, San Jose, December 15, that
year. He was pronounced cured.
But his now clear, forceful mind,
remained blank until June, 1919, when
a spinal manipulation set his brain
to functioning again like a re-wound
clock.

And through the length of his
amazing story runs a silver thread
of romance. Once it was stretched
nigh to breaking; that was during

JUDGING 5-ACRE CONTEST

Ernest Thornburg of Shelby County Visiting Tracts This Week

Ernest Thornburg, manager of the Hamilton farms in Shelby county, is judging the contestants in the five acre corn contest in this county. He is being conducted on a tour of the county by Donald D. Ball, county agricultural agent. The judging was to have begun last Friday, but was delayed one day and did not start until Saturday when Mr. Thornburg and Mr. Ball were in the northern part of the county. The judging will continue until Thursday. The five-acre contest aroused much interest among farmers last year, the prize winners being announced at the annual corn show.

ENOUGH COAL TO SUPPLY DEMANDS

Survey Shows Ample Production Regardless of Slumps in Mines And by Strikes

INTERESTING DATA RECEIVED

Threatening Railroad Strike May Again Cause Shortage This Winter, if it Matures

There will be coal enough for all this winter, in spite of slump in mine production, according to information gathered by the United Press from every section of the country. If the railroad strike threatened materializes there may be a shortage in some localities, but dealers in most cities report a reserve sufficient to carry them through the winter. Kansas and neighboring states report the lowest coal stocks due to the strike.

Other facts disclosed by the survey are:

That despite the fall in prices of many commodities, coal remains about the same price as last year.

That partly because of this and partly because consumers are awaiting a fall in freight rates, most householders delayed laying in winter stocks until the recent cold snap caused a rush in buying.

On the basis of present conditions, government officials do not expect any winter shortage. The total production of soft coal for 1921 is estimated as 391,780,000 tons as compared with 556,420,000 tons last year. Part of this falling off is explained by slack business conditions and part by the falling off in the export trade.

Government figures also show that many miners are out of work and railroad coal carrying equipment is idle. It is believed therefore that production could be speeded up quickly.

Most sections of the country reported slack buying until a few days ago, good supply in the hands of dealers, and only slightly lower prices.

In the east, such cities as New York and Philadelphia, stocks were reported normal or above with slack buying and prices about the same as last year.

Pennsylvania cities, in the heart of the coal district report lowest prices with no fear of a shortage.

Cleveland reports only a thirty day reserve on hand, but with shipments speeding up. Columbus, Ohio, reports a large reserve.

Kansas City and St. Louis report small reserves and little advance buying but no fear of a shortage.

In Chicago coal prices are \$4 a ton less than last year but only a 30 or 45 days supply is on hand.

Southern cities in many cases report stocks lower than ordinary, due to the belief by dealers and consumers that a fall in freight rates was due.

New York Stocks

(By United Press)

New York, Oct. 17—When the stock market opened here today the rails in general were off and in the dividend paying carriers, the declines ran from a point to nearly two points. Great Northern preferred stock opened at 66 1/2 off 1 1/2 points, while the loss in New York Central at 70 3/4 amounted to a full point. Northern Pacific was off 1 1/2 at 69 1/2.

In view of the threatened railroad strike, called for Oct. 30, there was heavy selling in rails and this had some effect on the rest of the list. Steels seemed to suffer the most. Steel common was off 1/2 at 77 1/2, and independent steels were from 1/2 to 1 point lower. Mexican Petroleum however, proved an exception, opening up 1/2 at 94 and then running up to 94 1/2.

INDEPENDENTS TO BACK BIG UNIONS

Continued from Page One
Handlers, Express and Station Employees, was expected soon.

President Fitzgerald said his general chairman were prepared to put their official sanction to the strike on a few minutes notice. The union has a 55,000 membership.

Only one official, the head of one of the smaller unions could be found who was not in favor of a strike.

This official stated he would "fight the strike tooth and nail" because the big brotherhoods "doublecrossed" the smaller unions by deciding to strike and then quit when their own demands were met. Other officials, however, pointed out that men in his union had voted to strike and the only thing he could do would be to concur.

H. P. Dangherly, vice chief of the Brotherhood of Locomotive Engineers, handled strike detail for the chiefs of the five brotherhoods, who are now back at their home offices. Dangherly is in charge of the strike headquarters in the consumers building. No inkling of defense plans of railroad executives was forthcoming. However, one executive of large line indicated it would be an easy matter to recruit workers from the quarter of a million jobless railroaders in the country.

The general public will be hard hit when the fight between railroad employees and executives gets under way.

This is how dealers in household necessities will be hit by the strike. Coal—The coal bin of the public and big industries is practically empty. The impending railroad strike will cause the same fuel shortage as did the coal strike of 1919.

The public, according to H. S. Donald, secretary of the Illinois Coal Operators, buys its coal the latter part of October and November.

Donald said the big industries have a very meager supply on hand. Many companies pinched by the industrial depression have not been financially able to lay in large supplies. The high freight rates which added to the cost of coal also contributed to the unpreparedness of big consumers. Some companies working only part time haven't seen the necessity of filling their bins.

Chicago, Donald said, is the largest coal market in the world. More than 30,000,000 tons come to and pass through Chicago annually.

Coal miners would be among the first to be thrown out of work following the railroad strike. Coal is only mined when it can be moved.

TRIBUTE IS PAID TO BRITISH TOMMY

Congressional Medal of Honor is Laid on Grave of Unknown Soldier in Westminster Abbey

PERSHING ACCORDED HONOR

Effort Apparently Made to Wipe From Memory Recent Red Tape Which Almost Stopped Ceremony

By CHARLES McCANN
(U. P. Staff Correspondent)

London, Oct. 17—Amidst the splendor of a military pageant sobered by solemn religious ceremony, American paid tribute to Britain's unknown warrior today.

The Congressional medal of honor, highest award within the power of the United States Congress was laid upon the grave of the unknown Tommy who lies buried in Westminster Abbey, while British royalty, peerage and military and naval dignitaries and American admirals and generals looked on.

General John J. Pershing, commander in chief of the American army was accorded almost royal honors before the ceremony today. King George sent the royal carriage to the American embassy and Pershing drove to Parliament square in state, between long lines of troops which stretched the length of Constitution Hill and Whitehall.

At the entrance to the historic Abbey where the ceremony took place, General Pershing and Ambassador Harvey were met and greeted by Dean of Westminster. With the Dean stood the Duke of Connaught representing King George. Every possible honor was accorded the American commander in chief in an apparent effort to wipe from memory the recent red tape and official blundering which nearly prevented his visit. The crowds along the route, held back by hundreds of police and troops, cheered enthusiastically.

Britain's ministers of war, air and navy were at the Abbey door with their guards of honor. Towering Welsh guards in bright scarlet tunics and high bushies, contrasted with the tin hatted, khaki clad doughboys from the Rhine, but the latter held their own in appearance and military precision. General Pershing took an especially snappy salute from his men as he stepped from the carriage.

Military and naval bands massed in the square broke into the Star Spangled Banner. Pershing came to attention and the entire square became motionless until the last notes of the Anthem died away. From the crowd of onlookers behind the low square of soldiery came the sound of British voices singing.

Inside the Abbey, around the simple slab which marks the grave where Britain's unknown hero lies buried, stood premier David Lloyd George, Admiral Niblack, Ambassador Harvey who had preceded Pershing, Field Marshals Lord Haig French and Allenby, Field Marshal Wilson and Robertson. Picked detachments of American soldiers and sailors, army navy and air force troops were lined up.

prostrate the grain business of the country and tie up the export trade according to Joseph P. Griffin, president of the Chicago Board of Trade.

Although the crop movement of the small grains such as wheat, oats, rye and barley from the farm to the elevators has been complete the strike will cripple movements from the large sources of supply to the ultimate consumer.

None of the corn crop has been moved, according to Griffin and complete demoralization of the marketing of this important crop looms.

Meat—Packing town—the great Chicago stock yards—will become idle soon after the strike is called which means that the million dollar-a-day business in live stock will be at a standstill.

With even a partial tie up, according to officials there can be little movement of livestock to the yards and of course little movement of dressed meats to feed the nation.

Fresh meat will be the first commodity to be missing from the family larder, packers declared.

TURBULENT HEARING IN THE KLAN HEARING

Imperial Wizard Simmons Makes Charge Against Rules Committee Head Which He Withdraws

ATTACKS THE NEWSPAPERS

(By United Press)

Washington, Oct. 17.—The house rules committee hearing on the Ku Klux Klan came to a turbulent ending today when Imperial Wizard Simmons charged on the stand that Representative Campbell, chief of the committee, had ridiculed Simmons' collapse before the committee last Thursday as a cheap theatrical performance.

Campbell branded the statement as untrue, declaring that "this hearing would stop right here if that sort of thing was used as a defense." Campbell permitted Simmons to go on after he said he did not think that Campbell meant the statement.

Simmons launched into an attack against the newspapers, charging that they exposed the Klan. He also turned to Anderson Wright, former Klansman officer, who wrote a series of articles against the organization.

He asked the committee to recall Wright and probe into his police record and record in the army. Wright, Simmons charged, represented himself falsely as an overseas air service officer and wore a major's uniform which he was not entitled to wear.

Asked about distribution of initiation fees, Simmons said that \$8 of each \$10 fee went to Ed Young Clarke, imperial officer, and \$2 went into the treasury. In addition, he said Clarke received expense money.

Facing Another Menace

Of late we have noted dispatches from abroad predicting the early bankruptcy of the nations of Europe. It may even come to that extreme. It may provide a convenient method of wiping out the billions of dollars in debts that are hanging over governmental heads. Certainly not many on this side of the water would experience any great measure of surprise.

If these governments do go into bankruptcy what will be the result? Demoralization in their home countries and then one grand stampede for the fabled land of milk and honey—the United States.

Millions of frenzied men, pushing, shoving, fighting, tearing in a mad scramble to get into this country. And shall we admit them indiscriminately?

All true American vote no. We can worry along beautifully without adding to those we have. We would be even better off if about two-thirds of them were sent back to the places whence they came.

We certainly don't want any more, unless they come to us with clean hands and with minds capable of remaining clean and loyal to this country.

There is more danger of Europe going bankrupt than most people believe. It is not only a possibility but is even a probability.

It, then, is incumbent upon congress and our immigration authorities to close the gates to them all, unless they can produce unimpeachable records as to character and demonstrate to our entire satisfaction that they are in such financial condition as to become assets in our midst instead of burdens and firebrands to the community.

High sounding phrases of confidence do not make a truth and neither does the waving of an indifferent hand ward off danger.

This is our country, and if we want to keep it as such we must begin without delay a rigid exclusion of that element that revels in a wild eyed dream of an overturned government and free gold for all.

On with the padlock and in with the key!

Don't become discouraged because the world fails to accept you at your own valuation. The Lord knows you as you are, and the rest of us don't count.

If the coming winter proves to be as severe as has been predicted we are in danger of losing our crop of coal barons. They will all become princes.

An honest effort that ends in failure is better than no effort at all. It supplies the experience that paves the way to future success.

Of course, if short dresses and bare knees remain in style the north can always drift south for the winter months.

There is only one thing that prevents the average wife from saving money. She can't save what she doesn't get.

As prices go down, buildings go up, thus exemplifying the well known law of economic equilibrium.

Many people are blessed with good dispositions and cursed with an inability to retain them.

THE MASCOT

COMBINATION RANGE surpasses other ranges in another important particular. Years of study by experts have perfected a gas oven that is incomparably more EFFICIENT than any ever before devised.

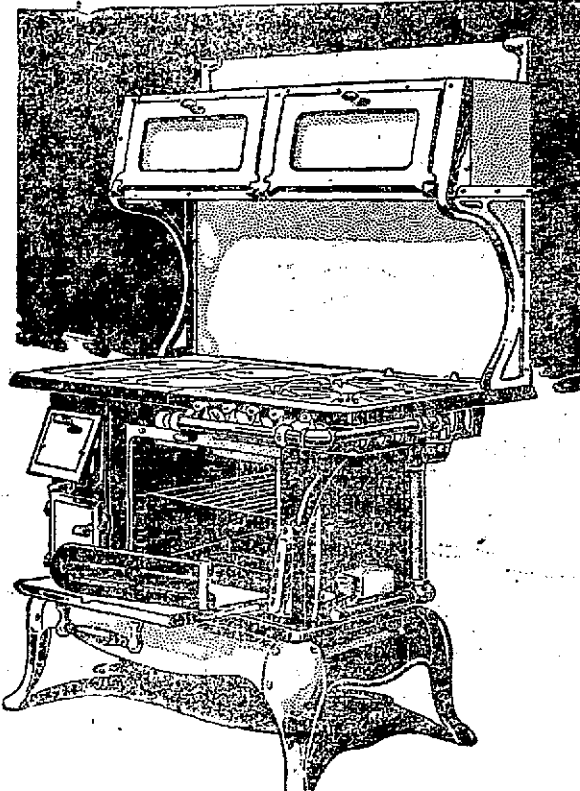

In the MASCOT Combination Ranges, where coal or wood is used the heat still goes all around the oven, so in the Mascot combination the makers have fully realized their ambition to make a range that would be the last word in efficiency in the use of gas, coal or wood. Our years of study and experiment with the Mascot Range truly resulted in the greatest achievement known in the manufacture of ranges.

The Mascot Combination is ready for the use of either gas, coal or wood or ALL at the same time. When gas is used as a fuel it is ready for use when you turn on the gas.

No dampers or triggers, no cold spots in oven when using coal or wood. See the air in-take on the range. When you turn on the gas you open the air in-take and when you turn off the gas you close the air in-take.

ALLEGED LIBEL SUIT THROWN OUT OF COURT

City of Chicago Brought Action for \$10,000 Against The Chicago Tribune For Alleged Statements

JUDGE UPHELD DEMURRER
(By United Press)

Chicago, Oct. 17—The suit for \$14,000,000, brought by the City of Chicago against the Chicago Tribune for alleged libel, was thrown out of court by Circuit Court Judge Harry M. Fisher.

Judge Fisher upheld the demurrer filed by the Tribune to the suit.

The suit was based on statements made by the Tribune that the city was bankrupt, which officials held injured the financial status of the city and it was unable to dispose of bonds.

"This suit is not in harmony with the genius, spirit or object of our institutions," Judge Fisher declared.

"It does not belong to our day, but rather to the day when monarchs promulgated laws with the purpose of carrying out their lustful passion for undisturbed power.

"Since no cause for action exists, it is unnecessary to consider any of the other questions involved in the arguments."

COSTS MORE TO RUN STATE

Government Expense Twice as Much in 1921 as 1917

Indianapolis, Ind., Oct. 17—It costs almost twice as much to run the state government during the fiscal year ending September 30, 1921, as it did for the fiscal year ending September 30, 1917, according to figures revealed today at the office of the state auditor here.

Expenditures this year exceeded receipts the figures showed. The balance on hand September 30 was \$3,039,490.91, a reduction from \$4,568,397.37 on hand at the close of the preceding fiscal year.

Gross disbursements for the last fiscal year were \$25,420,215.87 compared with gross receipts of \$26,891,371.60. Disbursements at the end of the fiscal year in 1917 were \$14,361,804.

MOTHER! MOVE CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

BUTLER PLANS A HOMECOMING DAY

Celebration Will be Held on October
22 With Special Feature Planned
For The Day

FORMER STUDENTS PARTAKE
Football Clash With Earlham Will
be Among The Big Things of
Interest on Program

Indianapolis, Ind., Oct. 17.—The stage is being set at Butler University for the Homecoming Day celebration which is to be held on Saturday, October 22nd. Many splendid features are being planned for the huge affair which will last throughout the entire day, starting early in the morning and ending late at night. All former students of Butler will return to their Alma Mater and a program providing for a good time for all is being arranged.

The feature of the day will be the annual Butler-Earlham football clash. Immediately following the gridiron contest, a huge demonstration will be held where old timers and the present pigskin tossers will take the leading role. Earlham is expected to be a tough card for the Blue and White eleven this year as seven of their last season's squad are back in harness.

The Butler team which is the best that the Indianapolis institution has ever turned out and which has two wonderful victories already chalked up for this year, will probably find the slugging a little rougher during the remainder of their schedule than the opening affairs have been. With Earlham, Wabash, and the Michigan Aggies on consecutive week-ends, the Pagemen will certainly have their hands full if they turn in even two victories out of the three battles.

Couch Page's men surprised all Ohio when the strong Dennison eleven was defeated in the opening game for both of the schools and even Butler supporters were astonished when the Bulldogs won over Rose Poly last Saturday by a 70 to 6 score. By winning the Rose game, the Butler squad has a flying start toward winning the I. C. A. L. championship.

The complete program for the Homecoming Day has been announced by the faculty and will include the following: Morning session, procession and parade on downtown streets; Noon, all fraternity houses open for visitors; 2:30 Butler vs Earlham; 5:30, barbecue in Gym.; and evening huge frolic on campus and vaudeville in Gym. The complete program will be carried out regardless of the outcome of the game.

ELUDES POSSES AND THEN KILLS HIMSELF

George Haskett, 22, Who Killed
Phineas Lind, and Daughter,
Found Dead Near Seymour

WAS JILTED BY THE GIRL

Seymour, Ind., Oct. 17.—Eluding four armed posses after he had killed the girl he loved and her father, George Haskett, 22, put a bullet into his own brain on the Owen Stanfield farm four miles away.

The posses had searched for Haskett throughout Saturday night after he had killed Phineas Lind, 65, and his daughter Miss Nellie Lind, a pretty school teacher 24 years of age.

Haskett had repeatedly tried to force his attentions on Miss Lind. She attempted to repulse him and when she failed her father interfered. It is presumed Haskett resumed his urgent courting at the Lind farm home Saturday and that when the father ordered him away he shot the aged man, later killing the girl because she refused to accompany him.

The posses scoured the woods until after daybreak Sunday. Later Haskett fatigued and harassed told his story to Owen Stanfield who used to work for Haskett's father. Stanfield ordered him from the place and later found his lifeless body when he went to feed the stock.

HEAVY HITTING FEATURES FINAL

Tail Lights Defeat All Stars Sunday
in a Benefit Base Ball Game, 18
to 8

\$65 FOR SALVATION ARMY

**Fifth Inning Proves Big One When
Tail Lights Bat Around and Byrne
Hits Homer**

The Tail Lights defeated the All Stars here Sunday afternoon in a game in which heavy hitting featured, the score being 18 to 8, and with the Salvation Army receiving \$65 which was the proceeds after the expenses had been deducted.

The two teams hit the ball freely, and at first the All Stars got a lead of three points and soon had the score 5 to 2 in their favor, but the Tail Lights got busy with hits, and in the fifth inning went ahead on their eight runs.

Williams started to pitch for the All Stars but was wild and after one out was made, he was relieved by McCarty, who held things in sway until the fifth inning when the Tail Lights got to him and batted around for the eight runs. McCarty was followed by Hobart and then Yazel finished the game.

The Tail Lights started off with Bramel, who held the All Stars to a few runs, and he was replaced by Schmall, and Bennett finished the game in the eighth and ninth innings.

The two teams fought hard all of the way through, and the Tail Lights presented a shifted line-up from the usual players, with Shaw and Smith out of the game, and with Sharp playing short for a time, and Bennett in the field and on the mound. Pearsey played first, and Joyce was on third, and Nick Tompkins held down second.

The big inning took place in the fifth when Byrne, first up singled past third. Sharp was safe on an infield hit. Pearsey filled the bases when Cleveland let the ball get through him. Tompkins bunted, Hobart fumbled and Byrne scored. Schmall hit to right, scoring Sharp, Pearsey, and Tompkins. Bramel fanned for the first out. Conway fanned also. A Joyce singled over second, Bennett doubled to right, scoring Schmall and Joyce. Byrne knocked the ball over left field fence scoring Bennett ahead of him. Sharp singled to left above third and Pearsey fanned for the third out.

The game yesterday ended the season for the Tail Lights, and it is expected that they will again be in the field next season.

WINS BY A LONE TOUCHDOWN

Arlington A. C. Football Team De-
feats Greenfield Sunday

The Arlington A. C's defeated the Greenfield football team yesterday on the Arlington grounds by a score of 6 to 0, Metsker going over in the third quarter for the only touchdown with a neat forward pass. The entire game was very hard fought before the largest crowd that ever witnessed a football game in Arlington. Caron and Rhone were effective in passes and the entire Arlington team has shown great improvements. Next Sunday Arlington will play the strong Ferndale club of Indianapolis at Indianapolis. This team has not been scored on this year.

SAYS BASEBALL LAW WILL BE ENFORCED

Commissioner Landis Takes Under
Consideration Infraction of Rules
by Ruth and Others

ON A BARNSTORMING TRIP

Chicago, Oct. 17.—Baseball law must be enforced" Judge Kenesaw Mountain Landis, supreme dictator of organized baseball thundered today when he arrived in Chicago.

Arriving at his office, Judge Landis took under advisement the alleged violation of baseball law by Babe Ruth, Bob Meusel and Bill Piercy, of the New York Yankees, who are barnstorming in New York state contrary to the rule which prohibits players who have engaged in a world series from playing in post season games.

"Ruth, on the face of evidence I have has violated provisions of the baseball law that I had no hand in making," said Landis. "I inherited the rules of the game when I became head of the baseball and I am going to see that the rules are enforced."

"On the fact of things Ruth has violated that section of the world's series agreements which forbids participants in the world's series to play after the series is over."

"I want to give this message to law abiding baseball players and to the public—Baseball law will be enforced."

The judge said he would give the case and all the evidence involved his closest consideration before announcing his decision.

Landis, in his high position, can suspend Ruth and the others for a period of time and outlaw them forever from organized baseball.

AMUSEMENTS

Owen Moore at The Princess

"A Divorce of Convenience", with Owen Moore in another of his delightful comedy characterizations will be the feature photoplay attractions at the Princess theatre today and tomorrow.

The story is one that was written especially for Mr. Moore by Victor Heerman, who both wrote and directed Owen Moore in his recent triumph, "The Chicken in the Case". Photoplay fans who witnessed that performance remember it as one of the bright comedy features of the past year. In constructing this new farce the author concentrated his efforts about the particular talents of the star with the result that no picture in which Mr. Moore has yet appeared was quite as suitable for him.

"A Divorce of Convenience" is straight comedy of the farcical variety that was made for laughing purposes only. No other star of the screen is better qualified for this line of work than Mr. Moore and the result, it is said, is a picture that will satisfy everyone.

In this production, which was directed by Robert Ellis, the star is supported by two leading ladies, Katherine Perry and Nita Naldi and the balance of the cast includes George A. Lessey, Frank Wunderlee, Dan Dully and Charles Craig.

"Black Roses" at the Mystic

In "Black Roses", his latest Robertson-Cole production, Sessue Hayakawa, distinguished Japanese star, is seen for the first time in many months in a photoplay laid entirely in America. The fact, however, that the action of the story takes place in only one country, does not deprive it of any picturesque effect. The same artistry with which every Hayakawa production is invested is paramount in "Black Roses" which opens at the Mystic theatre today and continues Tuesday.

During the course of the production Hayakawa is seen in three distinct characterizations, first as a happy-go-lucky gardener on the estate of a millionaire; next as a hardened victim of circumstances when by false evidence he is convicted of a murder he never committed, and finally as a Chinese Prince moving in the highest circles of society where he succeeds in flying and punishing those who were responsible for his life's tragedy.

In "Black Roses", Mr. Hayakawa is supported by one of the strongest casts ever assembled for a motion picture. Tsuru Aoki, a star in her own right, and in private life Mrs. Sessue Hayakawa is seen in the leading feminine role.

Recital Tonight

The following program will be given tonight at eight o'clock at the organ recital by Charles F. Hansen, the blind organist of the Second Presbyterian church, Indianapolis, at the First United Presbyterian church: Fantasia in C—Tours. Bridal Song—Jensen. Prelude and Fugue in G. Major—Mendelssohn.

Pavanna—Herbert Sharp. Allegro Symphonie Op. 46 No. 10—Salome. Morning Mood (Peer Bynt Suit)—Grieg.

Madrigal—Simonetti. Serenade—Pierne. Andante Cantabile—Tschaiowsky. Prelude (The Deluge)—Saint Saens. Gavotte in F. Major—Roeckel. Prelude—Chaminade. Overture (Lohengrin)—Wagner. Humoresque—D'Vorak. Overture to "Martha"—Flotow.

Forsakes "Center"

Bloomington, Ind., Oct. 17.—"Center of population or no center. \$5 a month is too much rent to pay."

So quoth Ol Ranard, as he packed up and moved two miles down the road from the beech tree which stands as a monument to the hub of the United States. Ol gets a house and a barn and pasture free at his new location and his former home within 200 yards of the beech tree stands vacant, begging for a renter at \$5 a month.

The housing situation at the center of population is not serious.

"Wear-Ever" utensils are made from hard, thick, cold-rolled sheet aluminum—metal which again and again has been passed through gigantic rolling mills and subjected to the pressure of huge stamping machines.

This special offer is made so you can see for yourself that Aluminum utensils are NOT all the same. SEE the difference—FEEL the difference—KNOW the difference—between ordinary aluminum and "Wear-Ever"

would have continued for some time yet if the strike threat had not been issued. He came to Indiana primarily for an Americanization meeting at Elwood where he was born and reared.

Aircraft May be Used

Kansas City Mo., Oct. 17.—Twelve hundred aircraft will be available to carry notables and delegates to the American Legion convention beginning here Oct. 31, if the railroad strike becomes effective, the aviation committee of the Legion notified the convention committee today. Many big passenger planes will enter in the air derby to be held, flying to Kansas City from their home stations, and it was declared these could carry many delegates. Airplanes are available to bring Marshal Foch from New York.

No Trouble Anticipated

Detroit, Mich., Oct. 17.—Detroit would have no difficulties in solving its food problems in event of a rail strike, city authorities said today. Food would be shipped in from outlying farm districts by motor trucks it was said.

Tenre Haute, Ind.—John Peterson's glass eye was wrecked when some terra cotta collided with his face. His good eye was uninjured.

Bright Spots in News

South Bend Ind.—Every child in the Orphans Home near here was taken to see "The Kid." Since then the home has been forced to spend \$75 for broken windows.

Joliet Ills.—Ordered to leave town by a police judge, two panhandlers refused the judge's offer of an escort to the city limits. They summoned their chauffeur, climbed into a large automobile and drove away.

Indianapolis—S. L. Adams, 50, left his clothes behind as he dashed from the home of O. L. Meyers just as Meyers entered the door. He even forgot his automobile and from the license number the police found him.

New York—Stephen Price, charged with beating John McGee said the latter was flirting with Mrs. Price.

"Any woman who is the mother of eleven children has neither time nor inclination to flirt," the court ruled.

EMBEZZLEMENT CHARGED

Chicago, Oct. 17.—L. N. Kolland, cashier of the Hanover Union State bank at Hanover, Illinois, was arrested today, charged with embezzling \$75,000 of the bank's funds. He is alleged to have "kited" checks.

Leave it to the kiddies to pick Kellogg's Corn Flakes—

yes ma'am, just like you will!

Put a bowl of KELLOGG'S Corn Flakes and a bowl of imitations in front of any youngster! See KELLOGG'S disappear! Try the experiment on yourself!

It's great to know the difference in corn flakes—the difference between the genuine and the "just-as-goods"! Kellogg's have a wonderful flavor that would win your favor by itself—but when you know that Kellogg all-the-time crispness! Well—they just make you glad. That's the only way to say it!

Kellogg's will snap-up kiddie appetites something wonderful! And, our word for it—let the littlest have their fill—just like Daddy must have his!

You'll never know how delicious corn flakes can be until you eat KELLOGG'S!

HOUSEWORK IS A BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Rushville women. Read what Mrs. W. A. Wylie 824 N. Arthur St. Rushville gave the following statement September 20, 1915: "I never had kidney trouble until quite recently but now I appreciate what a serious complaint it is and how severely one can suffer with it."

My trouble began with a clenching digging pain directly across the kidneys and over my hips. The pain was terrible and I had to be given pain-easing tablets by the doctor to relieve it. I was utterly unable to do my housework for a week and was in all kinds of misery. Others of my family had taken Doan's Kidney Pills with excellent result so I began using them. I got them and did not have to use a whole box before the pain across my back let up and soon disappeared."

On November 4 1920 Mrs. Wylie said: "I still have the same high opinion of Doan's Kidney Pills. I haven't had to use them for the past few years as my cure has been a lasting one."

AMERICA MAY MEDIATE IN SHANTUNG FIGHT

If Japan Makes Formal Request of U. S., It Probably Will be Accepted, It Was Stated

THROUGH SECRETARY OF STATE

(By United Press)

Washington, Oct. 17.—America may mediate the Shantung controversy between Japan and China, it was learned today.

If Japan makes a formal request of the United States to undertake mediation of the Shantung problem, it probably will be accepted according to a statement in authoritative quarters here.

Japanese Ambassador Shidehara has informally "approached" Secretary of State Hughes on the subject of American mediation.

It is believed that if mediation were undertaken it would be through Secretary of State Hughes.

Authoritative quarters here pointed out that a request from Japan for mediation would be more likely to be agreed to by this government than a request that the United States arbitrate the Shantung problem.

Arbitration would place upon this government a grave responsibility for handing down a definite decision in the Shantung controversy, a responsibility which it is not believed the U. S. is ready to shoulder. Mediation, on the other hand, would simply mean that the United States would use its good offices to bring about a settlement of the Shantung issue.

Former Rushville Woman's Romance Blighted by Husband's Memory Lapse

Continued from Page One
Fish's memory lapse, but he regained fast and it was as good as lost into the stronger bond of wedlock.

The story, stranger than fiction, came to light yesterday when it was announced that Fish had formally adopted his wife's daughter, Ruth McCloud, in Department 3 of the Superior Court.

"I want to make sure," he explained, "that no contest might arise over my will would jeopardize her property interests."

"Her mother and I lost three precious years. She means as much to me as would my own daughter. That's why."

Fish is a combustion expert and inventor. Ten years ago his best friend was Fred McCloud, then auditor for an automobile lighting concern. They were inseparable.

McCloud sickened and passed death. One day he called Fish to his bedside.

"George," he said, "I'm afraid it's all over with me. I want you to promise to look out for Esther and Ruth." Esther was McCloud's wife. "Take care of them, will you, old man?"

Fish promised.

The next day McCloud died. "After some time," said Mrs. Fish yesterday, "George asked me to marry him and I consented. We were to be married in October, 1916, and George came West on a business trip in September."

He was "driving" through California. He remembers it distinctly. It was a cloudy, dark day, toward evening. His small car was parked beside a road near San Jose. He sat at the wheel making notations in a small book.

Engrossed in his work, he heard only indistinctly the increasing roar of a powerful motor. He was half through a long column of figures when something snapped, lights flashed before his eyes—and he woke up in a spinal expert's office three years later.

Of what transpired during the three years his brain didn't function. Fish knows only what he has been told, and what he could gather from papers, letters and notations he found in his pockets. But this seems to be the story:

He was found 127 feet from the wreckage of his automobile. He was unconscious, limp, bleeding profusely. He was rushed to the San Jose Sanitarium. Doctors labored over him—and gave him up.

To all appearances and tests, he died that night. He was taken away in an undertaker's machine, addressed and placed on a slab in the morgue. Telegrams were sent to his friends. The mortician raised his knife, lowered it. The first cut was on the right arm.

And then the undertaker paused, startled, dumfounded. For he detected signs of life in the body.

Doctors rushed to the morgue, sewed the wound and began once more their fight for Fish's life. He was taken back to the sanitarium.

And three months later he walked out of the institution, apparently cured and sane.

He had forgotten Mrs. McCloud.

forgot every detail of his former life. He had forgotten where he lived his friends—and remembered his name only because it was written on letters and books in his pockets. He doesn't remember any of that today. His life, apparently began anew on the undertaker's slab in the morgue.

He traveled extensively; he doesn't know why. He was in Chicago once. Mrs. McCloud saw him in 1917 while she was there visiting a friend, Mrs. Virginia Wallace. He was there ten days.

He went to New York, New Orleans, San Francisco, Los Angeles—all over the country. He stopped at the best hotels, lived normally and sanely.

He may have continued his inventive works; he doesn't know.

He doesn't know how he came to be in a spinal expert's office at Modesto in 1919.

But his brain snapped back into place on an adjusting table there, and his first words were:

"fourteen, sixteen, twenty—What where?"

And so his life began anew that day—or rather, his first life continued where it had been snapped off.

Mrs. McCloud had been trying to locate him. She had written letters to the hotel at San Francisco where he always stopped, and they came back unopened. She had written his friends; they hadn't seen him.

And then that spring day, two years ago, came a telegram from Dr. C. E. Eddy of Modesto, dictated by Fish.

"Please come to me," the message said.

"We left that night," said Mrs. Fish, "daughter and I. My father, James A. Kratzer, a judge at Rushville, Ind., came with us. We nursed George for ten months before he was able to be up and around. And then we were married."

Judge William H. Langdon of San Francisco, presiding justice of the court of appeals, is an old friend of Mr. Fish. He it was who took him to the expert at Modesto who brought him back to himself—and to me."

Mrs. Fish is well known throughout Indiana, where her parents have lived for many years. She has an unusually clear soprano voice, and through muscled and concert came to be known as the "Hoosier Nightingale."

Fish was born at Shoals, near French Lick Springs, Indiana, and has spent several fortunes in the course of his experiments.

STAFFORD HAS WON A LONG HARD FIGHT

Fort Wayne Man Says He Feels Years Younger Since Getting Rid of Troubles

"Since Tanlac made a clean sweep of my troubles I'm feeling years younger," said James Stafford, 201 South Seventh St., Ft. Wayne, Ind. "When a man has had a long, hard fight with stomach trouble like I have he certainly knows how to appreciate good health. I dreaded to see night come, because instead of meaning rest for me it meant hours of rolling and tossing from one side of the bed to the other. My liver was sluggish and I felt weak and listless all the time."

"My son tried Tanlac and it did such good work for him I started taking it and it helped me wonderfully too. I eat three big, hearty meals a day now and am never bothered a bit afterwards. I'm as sound as a dollar, just feel fine all the time and never miss a day from work now."

Tanlac is sold in Rushville by F. B. Johnson Drug Co. and by leading druggists everywhere. Advertisement

NOTICE TO NON-RESIDENTS.

State of Indiana, County of Rush. Rush Circuit Court. September Term, 1921. Charles S. Winslow vs. James Cephas Griffin et al. No. 2533.

Suit to Quiet Title to Real Estate. The plaintiff in the above entitled cause having filed his complaint therein together with an affidavit of Douglas Morris, his attorney, that the following named defendants in said action, which is a suit to quiet title to real estate, are necessary parties to said action, and are non-residents of the state of Indiana, to-wit:

Grace Henn, George Henn, Charles Griffin, Gussie Griffin, Ida Graves, Clinton Graves, Della Robbins, Willis Robbins, Mary Allison, Leonard Allison, John Griffin, Robert Megee, Walter Megee Cook, Esther Gilboe.

Now, therefore, each of said defendants is hereby notified that said cause is set for hearing and judgment on Monday, November 21, 1921, at the court room, in the court house at Rushville, Rush county, Indiana, and that unless each of said defendants appear at said time, and place, and answer or demur to said complaint, that the same will be heard and determined in his or her absence.

Said November 21, 1921, being the first day of the November, 1921, term of said Rush Circuit Court.

In witness whereof I have hereunto set my hand and the seal of said court on this 4th day of September, 1921. LOREN MARTIN, Clerk Circuit Court of Rush County, Ind. Sept. 26-Oct-10-17

WHAT IS A ONE CENT SALE?

It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Tooth Paste is 25c. You buy a tube at this price, and by paying 1c more, or 26c, you get two tubes. Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING

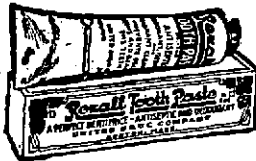

This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1 cent. It costs money to get new customers, the loss taken on this sale will be well spent if the goods please you.
